- Disaster management
- Communication skills in the ED

Clinicopathological Conferences

Trauma, Obstetrics and Pediatric Emergencies

Oral Presentations and Poster presentations for Postgraduate students

INVITATION

It gives us immense pleasure to inform you that the Division of Acute Care and Emergency Medicine, Department of Internal Medicine, PGIMER, Chandigarh, will be conducting a Conference on Acute Medicine from March 15th to 17th, 2024.

In the ever-evolving healthcare landscape, the Acute Care and Emergency Medicine division stands as a critical pillar in academia. This specialized branch plays a pivotal role in addressing the urgent medical needs of individuals, responding swiftly to critical situations, and ensuring optimal patient outcomes. The importance of this division lies not only in its ability to provide immediate and life-saving interventions but also in its contribution to medical education and research. With a vision to develop the field of acute medicine in an Indian setting and to educate our emergency medicine fraternity, PGIMER, in association with the Association of Emergency Medical Educators (AEME), is organizing this event, and we invite you all to participate in this academic feast.

With great pleasure, I extend a warm invitation to you and your colleagues to visit the beautiful city of Chandigarh. Beyond its vibrant medical community, Chandigarh boasts a rich cultural and architectural heritage that awaits exploration. Nestled at the foothills of the Himalayas, Chandigarh, designed by the renowned French architect Le Corbusier, seamlessly blends modernity with tradition. As you engage in the intellectual exchange at our esteemed medical institutions, I invite you to take some time to immerse yourselves in the cultural tapestry of this city. Explore the architectural marvels of the Capitol Complex, witness the breathtaking Rock Garden, and stroll through the serene beauty of Sukhna Lake. Chandigarh's Heritage Garden is a testament to the city's commitment to green spaces, providing a tranquil retreat for contemplation. The Government Museum and Art Gallery also offer a glimpse into the region's historical and artistic legacy. The weather in March is cool, and light, woollen clothes are recommended.

Please make it convenient to attend the conference. The organizing committee will strive hard to make your stay pleasant and memorable.
